PropSage

HOW PROPSAGE WORKS

Six principles behind every screen.

Authorised data, shown with its source. Analysis that explains itself. People accountable where decisions affect people.

PropSage provides information and software, not surveying, legal or financial advice.

Swipe →

01

Authorised data only.

Licensed feeds and public datasets, through registered connectors. We do not scrape websites.

PropSage provides information and software, not surveying, legal or financial advice.

02

Every value sourced and dated.

Verified facts, estimates and AI assessments are labelled differently.

PropSage provides information and software, not surveying, legal or financial advice.

03

Missing data is flagged.

What we cannot assess is shown as "not assessed". It is never scored as zero.

PropSage provides information and software, not surveying, legal or financial advice.

04

AI that cites its sources.

Assistants answer from PropSage data, cite what they used and say when they do not know.

PropSage provides information and software, not surveying, legal or financial advice.

05

People stay accountable.

Where a decision affects a person, a named person makes it, not the software.

PropSage provides information and software, not surveying, legal or financial advice.

06

Decision support, not advice.

Information and software. Regulated professionals are introduced through disclosed partners.

PropSage provides information and software, not surveying, legal or financial advice.

PropSage

Property, wisely.

Wise counsel for the whole property lifecycle.
